Now you did it,
Now you did it,
Stuck your finger in
The fuse box again!
Loaded your sleeves with sparks,
Your chest is gonna bust
'N you can almost see with your skin.

It's all white around you now.
You're screamin'
With the volume turned down.
She's screamin' too,
But you can't hear a sound
Shut down,
Shut down,
Shut down!
